Subject: Microsoft Settlement

This has gone on way too long now. PLEASE settle this ridiculous case and lets move on. Microsoft is an incredible company and I can't believe I live in a country that penalizes it's citizen's for being innovative and successful. Its disgraceful the way our government has treated our own company that we should be proud of. I used to live in Mexico and down there the people couldn't believe what the USA was doing. It was really embarrassing to try and explain it.
SETTLE THE CASE!
